Teaching guide: Bridging the gap

Introduction

The progression from GCSE to A-level can feel like a big step for learners. Our “Bridging the gap” resources for French, German and Spanish help students transition with confidence by developing vocabulary, grammar and key skills through engaging A-level-linked cultural and societal topics.

Designed to support transition, the tasks in this resource aim to build on what learners already know, offering a range of activities to consolidate learning and deepen understanding, and help learners move confidently towards A-level study.

Comprehensive answer sections are provided, allowing learners to study independently, understand and learn from mistakes, and make progress at their own pace.
