

# A-level Media Studies (7572/C)

## Teacher online standardisation (T-OLS) index

Every year we publish a range of student NEA work for A-level Media Studies (7572/C) showcasing different approaches from schools and colleges around the country. The materials cover a wide range of marks representing achievement at all levels of the mark scheme.

The primary purpose of this work is to help you standardise work for the internally assessed component before submitting marks for moderation. The examples can also support your teaching by exemplifying a range of Media products.

To help you find the examples you need, the tables below identify the year, briefs, a description, candidates and mark for each piece of work. **Please note**, the pieces of work from the current year do not include the mark.
