

Teaching guide: Grammar guide

For our new GCSE Spanish specification (8692), students are required to use their knowledge of grammar as prescribed in the [DfE Subject content](#). This grammar list is also provided in our [Spanish specification](#).

Students are required to demonstrate both receptive and productive knowledge of the grammar (though the derivational morphology in the grammar list can only be included for Paper 3 Reading).

Students entering Higher tier assessments are required to apply all grammar listed for Foundation tier, in addition to the grammar listed for Higher tier.

This resource:

- supports you with preparing your students for the new exams
- focuses on the grammar requirements relating to verbs and the use of singular and plural forms at each tier
- summarises the requirements in relation to the different tenses at each tier.

We hope you find it useful.

Version 1.1

Foundation tier

	Present	Present continuous	Preterite	Present perfect	Immediate future	Imperfect and Imperfect continuous	Future and Conditional	Imperative
Persons	All singular and plural	All singular and plural	All singular and plural of regular verbs and the irregular verbs listed below.
